**BEFORE THE COMMISSION ON JUDICIAL CONDUCT
OF THE STATE OF WASHINGTON**

In Re the Matter of

The Honorable David S. Keenan
Superior Court Judge for King County

CJC No. 9608-F-189

OPINION DISSENTING IN PART

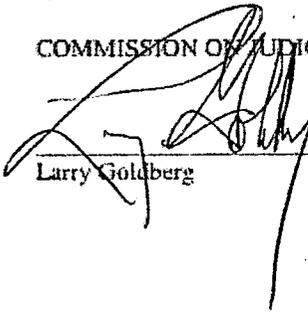

I do agree, having heard the evidence and arguments, that there was a technical violation of the Code: the ad utilized the Respondent's position as judge for the benefit of the college, and Respondent should not have permitted that.

I strongly disagree with the majority that the ad gives the impression that Respondent is biased or would be likely to rule in favor of members of marginalized communities. I am a White, Anglo-Saxon male who is not economically disadvantaged myself. I would not feel concerned about this judge's impartiality if I had a court case in front of him, where the other side was a member of a marginalized community, even though I have seen this ad.

Regretfully, having found a violation, we are bound by the law to impose discipline, and the only reasonable option in this case is the lowest sanction of an admonishment.

DATED this 5th day of February, 2021.

COMMISSION ON JUDICIAL CONDUCT

Larry Goldberg
